Prerequisite: Placement examination, a grade of C- or higher in MATH 099.

Course Description: MATH 101 is the second in a two-course sequence in elementary and intermediate algebra (MATH 099/MATH 101) designed to provide students with a foundation to study college level mathematics. MATH 101 carries three credits that count toward meeting the minimum number of credits required for graduation but do not satisfy the general education requirement. Mastery of material in this course is necessary for success in mathematics and statistics courses with numbers greater than 100 and for courses in the natural and social sciences. You must earn a C- or higher in MATH 101 to meet the prerequisite for any Skill Area II general education course. You need at least B- for math 119.

Section: MATH 101 section 08 meets in MS 223, 9:25-10:40

Instructor: Lynn D. Page
Phones: Home 860-667-1835, 8:30am-9:00pm
E-mail: Lynnd.Page@yahoo.com, page@ccsu.edu
Office: MS 219
Mailbox: MS 211
Office Hours: Wednesday & Friday 10:40 and by appointment.
Learning Center: Willard 100

Calculator Use: Graphics calculators are required for MATH101. I use the TI-83 plus. Phones are not to be used as calculator.

Phones: Please turn your cell phone off or put it on vibrate and put it away when class starts. Do not use your phone in class.

Restroom: Please use the rest room before class starts. Walking across the room during class disrupts the flow. If you do need to get up and leave the room please do so as quietly as possible.

Course Requirements: Attend and participate in class regularly, complete homework assignments, take quizzes and tests, as scheduled. A general rule for any college course is that you are expected to put in at least 2 hours of work outside of class for every hour in class. For MATH 101, the expectation is at least 5 hours per week outside of class.
Coverage: MATH 099 covers Chapters 1-6 in the text (Volume 1). You should review this material if you need to since I will assume that you know it. In MATH 101 you are responsible for all of the material in Chapters 7-12. These six chapters will be covered in the order they appear in the text. Each section has 25 assigned problems at the end, 15 new problems and 10 skill and review problems. Most problems will be assigned and you are expected to work all of them.

Homework: Homework will be assigned daily. Homework will be checked and it will be collected for a grade without advance notice. Late homework will not be given full credit. The homework grade counts as much as one test.

Homework is assigned for the sole purpose of helping you learn. If you do your homework conscientiously, your performance on tests and quizzes will improve. I encourage you to work with other students on these assignments and to get the assistance of tutors, if necessary. However, merely copying someone else's work, copying the board or asking a tutor to do the problem for you will not result in significant learning.

Attendance Policy: You are expected to attend each class. If you miss class, you are expected to know what you have missed (you have the schedule), to read the section in the book and to have done (tried) the homework, (review questions should be doable #16 – 25).

Class Procedure: Students will be expected to put homework problems on the board before/as class starts. Each student must put a minimum of 8 problems on the board during the semester. Each problem will count as ¼ of a point totaling 2% of the possible 12 homework %. The other 10% are from collected homework assignments. Any problems beyond the 8 will be an additional ¼ point on your final grade. For example, every 4 problems on the board the student will receive 1 additional point to the final grade not to exceed 7 bonus points. Classes meet for one hour and fifteen minutes. We will spend a few minutes going over homework assignments, lecture on new material and sometimes we will have a quiz. There will be at least 4 quizzes during the semester.

Evaluation
The grade for the course will be based on the following weights:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Three tests</td>
<td>36%</td>
</tr>
<tr>
<td>Quizzes (lowest grade dropped)</td>
<td>18%</td>
</tr>
<tr>
<td>Homework</td>
<td>12% (2% board problems)</td>
</tr>
<tr>
<td>Class work and Participation</td>
<td>9%</td>
</tr>
<tr>
<td>Department final examination</td>
<td>25%</td>
</tr>
</tbody>
</table>

The average going into the final will be based on four grades.

Tests: Use Pencil or lose 5 points. Write neatly, if I can’t read it, it is wrong. You will be given the entire class period (one hour and fifteen minutes) to work on the test. If you miss class on the day the test is scheduled, a make-up will be given only within two
weekdays of the scheduled test. (Before the next scheduled class) Please contact me as soon as possible.

**Quiz Average:** Use Pencil or lose 5 points. At least 4 quizzes will be given. The lowest quiz grade will be dropped. The rest will be averaged to determine this grade. There are usually no quiz make-ups. Please contact me as soon as possible. If you are absent the day of a quiz, the grade will be recorded as zero. (It will be the one that is dropped)

**Class work and Participation:** Class work and participation will be evaluated. This grade is 9% of your total grade. Basically a letter grade.

**Department Final Examination:** A sample final examination will be made available to you in the second half of the semester. The entire course is designed to help you pass the final.

**University Policies:**

1. You must take the final examination at the time specified for your section, 
   MATH 101 Section 08 Friday 13, 2016 8am – 10am

2. If you need course adaptations or accommodations because of a disability, if you have emergency medical information to share with me, or if you need special arrangements in case the building must be evacuated, please speak to me as soon as possible.

3. In the event of a weather emergency, which requires curtailment of classes, listen to WTIC (am 1080) or call (860) 832-3333 for the “general snow message.” In the event that I am prevented from traveling to campus and must cancel class, I will leave a message with the secretary in the mathematics department. You may also call me at my home number. A missed test or quiz due to class cancellation will be taken the day we return to class.

4. Last day to drop is **April 18, 2016.** W will appear on transcript. Withdrawal forms are available in the Enrollment Center, Willard Hall. Cessation of attendance, notice to the instructor, or telephone calls to the Enrollment Center are not considered official notice of a student’s intention to withdraw from the course.

   After **April 18, 2016** withdrawals are allowed only under extenuating circumstances and require approval of the course instructor, department chair and dean of the School of Arts and Sciences.

4. **Statement on Discrimination and Harassment**

   Central Connecticut State University strives to maintain our campus as a place of work and study for
faculty, staff, and students that is free of all forms of prohibited discrimination and harassment based upon age; ancestry, color; gender identity and expression; intellectual disability; learning disability; mental disorder; physical disability; marital status, national origin; race; religious creed; sex, (including pregnancy, transgender status, sexual harassment and sexual assault); sexual orientation; or any other status protected by federal or state laws. Any student who has concerns about should contact the

Office of Diversity and Equity (ODE) at 860-832-1652, Student Affairs at 860-832-1601, or his/her faculty member. The ODE is located on the main floor of Davidson Hall, room 102.

5. Sexual Misconduct, Intimate Partner Violence and Stalking

Central Connecticut State University (CCSU) will not tolerate sexual misconduct against students, staff, faculty, or visitors in any form, including but not limited to: sexual assault, sexual exploitation, sexual harassment or stalking, as defined in CCSU policies. For additional information, please consult the CCSU policies at http://www.ccsu.edu/page.cfm?p=1333.

Note: All faculty members and staff have a duty to report incidents of sexual harassment including sexual violence to Rosa Rodriguez, Title IX Officer, Office of Diversity and Equity, Davidson Hall, 102.

To file a report contact: Diversity and Equity (860-832-1652); Student Affairs (860-832-1601); Student Conduct (860-832-1667) or the University Police (860-832-2375).

For support and advocacy contact: Student Wellness Services at 860-832-1945 (confidential), the Women’s Center at 860-832-1655, the local YWCA’s Sexual Assault Crisis Services Hotline at 860-223-

1787 (confidential) and Prudence Crandall Center for Domestic Violence (confidential) at 888-774-2900

(24-hour hotline).
