Instructor: Waiveris
Office: Marcus White 111
Office Hours: MW 12:35-1:35, 3:25-4:25, T 12:00-1:00
Telephone: (860) 832-2859 (on campus x22859)
eMail: waiveris@ccsu.edu
Class Web Site: invisiblegold.com/math

Material to be Covered:
Chapter 0 The Real Numbers (one day)
Chapter 1 Functions and Their Graphs
Chapter 2 Linear, Quadratic, Polynomial and Rational Functions
Chapter 3 Exponents and Logarithms (3.1-3.5)
Chapter 4 Trigonometric Functions
Chapter 5 Trigonometric Algebra and Geometry
Chapter 6 Applications of Trigonometry (6.1,6.2)

Calculator: You will need a graphing calculator for this course. TI-83 or 84 recommended.

Computer: There will be some computer work. We will use a program called IFS 2.0 which you can access from our class site and the campus network. We will also see how we can use DERIVE to solve many of the questions that we need answered.

Grading, Homework, Testing, Attendance, etc.: There will be three 100 point tests and four 25 point homework assignments. No late assignments will be accepted. There will also be a 200 point final exam on Wednesday May11 (10:50 section 11:00-1:00 and 1:40 section 2:00-4:00) thus making a total of 600 possible points. Your final grade will be based on your percentage of the total possible number of points with < 60% = F, 60's = Ds, 70s = Cs, 80s = Bs and 90s = As. Reading and written homework assignments from the text will be given in each class. You are expected to complete these assignments. The beginning of each class will be dedicated to homework questions. You are expected to attend class. Each unexcused absence in excess of four will result in a reduction of your final average.
General Remarks: The last day to withdraw from a course with no record of it appearing on your transcript is February 8. After February 8 until April 18 you may withdraw from a course by completing a withdrawal form, available through the Registrar’s office in Davidson. The course with a grade of W will appear on your transcript. No signatures or faculty approval are required. After April 18 approvals for withdrawals are not given without my signature, the Math Department Chair’s signature and an extenuating circumstance. It is strongly recommended that you consult with your academic advisor before deciding to withdraw. Cessation of attendance, notice to the instructor, or calls to the Registrar’s office are not considered official notification of your intention to withdraw from the course. Failure to properly withdraw from a course will result in a grade of F appearing on your transcript.

The use of cell phones or any other electronic device other than a calculator during class is not permitted.

Please contact me privately to discuss your specific needs if you believe you need course accommodations based on the impact of a disability, medical condition, or if you have emergency medical information to share. If you need special accommodations to meet course requirements I will need a copy of the accommodation letter from Student Disability Services in order to arrange your class accommodations. Contact Student Disability Services in Willard 101-104 if you are not already registered with them. Student Disability Services maintains the confidential documentation of your disability and assists you in coordinating reasonable accommodations with your faculty.

Good Luck.
