Text: Discrete Mathematics with Graph Theory 3rd edition, Goodaire and Parmenter, Pearson Prentice Hall,

Material to be covered:  
Chapter 0 and 1–Proofs and Logic 0.1-0.2, 1.1-1.3  
Chapter 2--Sets and Relations 2.1-2.5  
Chapter 3--Functions 3.1-3.3  
Chapter 4--The Integers 4.1-4.4  
Chapter 5--Induction and Recursion 5.1-5.3  
Chapter 6–Principles of Counting 6.1-6.3  
Chapter 7–Permutations and Combinations 7.1-7.5 and 7.7

Homework, Testing and Grading:  
There will be four 25 point homework assignments, three 100 point tests and one 200 point final exam. Your final grade will be based on your percentage of the total possible number of points with 90s=As, 80s=Bs, 70s=Cs, 60s=Ds, and <60s=Fs. You are expected to read the book, come to class (attendance will be taken) and also work the assigned exercises at the end of each section covered.  
Your final exam is scheduled for Monday May 9 from 4:30-6:30.

Other: All electronic devices other than calculators are not to be used during class or exams.  
The last day for dropping a course without having to go through the withdrawal procedure is February 8. The course will not appear on your transcript. (Make sure that you do not drop below full time status.) From February 9 through April 18 you can withdraw from a course without instructor or department chair approval by filling out a withdrawal form. A W will appear in your transcript. It is strongly recommended that you consult with your advisor before dropping or withdrawing from a course (any course). After April 18 you will need two signatures (mine and my department chair’s) plus an extenuating circumstance in order to drop this class.
Please contact me privately to discuss your specific needs if you believe that you need course accommodations based on the impact of a disability, medical condition, or if you have emergency medical information to share. I will need a copy of the accommodation letter from Student Disability Services in order to arrange your class accommodations. Contact Student Disability Services in Willard Hall if you are not already registered with them. Student Disability Services maintains the confidential documentation of your disability and will assist you in coordinating reasonable accommodations with your faculty.

Good Luck
CFW
